

Joint Webinar on Towards 5G for Industry in India

**August 24, 2020
02:00 pm – 04:00 pm**

Industrial 5G will play a key role in helping industrial users achieve the goals of Industrial IoT. A core requirement of Industrial IoT is the ability to connect sensors, devices, equipment, software applications, manufacturing production processes, workers, and end consumers.

5G-ACIA is the central global forum for shaping 5G in the industrial domain. On one platform, various industries from all over the world jointly create a new ICT and OT ecosystem and set the frameworks for a highly attractive emerging market.

5G India Forum (5GIF) - an industry collaborative forum, was established to enable synergizing the national efforts and play a significant role in shaping the strategic, commercial and regulatory development of the 5G ecosystem in India.

Who should attend:

With this context, COAI is organizing a panel discussion with the stakeholders - TSP, Telecom Vendors, Manufacturing industry players, System Integrations for Industry 4.0 to stimulate and accelerate the digitization road map of the industries. This brainstorming will help to identify the requirements from OT industry and readiness of Indian TSP to provide the reliable connectivity infrastructure and services. Globally, different countries have adopted and developed new policies to enable private networks.
